INSTRUCTIONS FOR USE OF TABLEWARE

Thank you for purchasing our porcelain or ceramic tableware. To enjoy its durability and appearance for as long as possible, please read the following guidelines on use and safety.

1. Safety during use

- **Take care when using:** Products made of porcelain and ceramic are delicate. Avoid knocks and sudden changes in temperature to prevent cracks and damage.
- **Keep away from children:** Porcelain tableware can break easily and poses a hazard to children. Store it out of the reach of small children.
- **Avoid sudden changes in temperature:** Sudden changes in temperature (e.g. pouring boiling water into a cold cup) may cause the porcelain to crack. Gradual warming is recommended.

2. Use

- **Washing:** Porcelain and ceramic tableware may be washed in a dishwasher; however, hand washing is recommended to prolong the life of the patterns and decorations. Use mild detergents and soft sponges to avoid scratches. The dishwasher-safe symbol can be found on the label and directly on the product.
- **Microwave:** Most porcelain and ceramic tableware is suitable for use in a microwave oven; however, before first use, make sure that the product does not have any metallic decorations, which may cause sparking. The microwave-safe symbol can be found on the label and directly on the product.
- **Storage:** Store tableware in a way that prevents it from being accidentally knocked over or crushed. It is best to arrange it in cupboards with suitable dividers.

3. Care and maintenance

- **Avoid strong detergents:** Use gentle cleaning agents for washing. Strong detergents may damage delicate porcelain or ruin the decorations.
- **Check the condition regularly:** Before each use, check that the tableware has no damage, such as cracks or chips. Damaged tableware may pose a health hazard.

4. Final notes

- **Guarantee:** Our products are covered by a quality guarantee. If you find any manufacturing defects, please contact our customer service department.
- **Keep the original packaging:** Please keep the original packaging until you have made sure that the product is fully functional.
