INSTRUCTIONS FOR USE OF KITCHEN DISPENSERS

Thank you for purchasing our kitchen dispensers. To ensure they last a long time and help you keep your kitchen organised, please read the following guidelines.

1. Safety of use

- **Safe storage:** Make sure the dispensers are placed on a stable surface to prevent them from being accidentally knocked over and their contents from spilling.
- **Careful dispensing:** Use the dispensers in accordance with their intended purpose. Avoid pouring hot or boiling liquids into the dispensers unless they are designed for this.

2. Use

- **Filling:** Before filling the dispenser, make sure it is clean and dry. Fill it to the recommended level to avoid the contents overflowing when the dispenser is closed.
- **Dispensing:** Use the dispenser according to its function (e.g. for oil, soap, liquid seasonings). Press the button or pump gently to dispense the appropriate amount of liquid.

3. Maintenance

- **Cleaning:** Clean the dispensers regularly with warm water and a mild detergent to prevent the pump from becoming blocked and liquid residues from building up. Dry the dispenser thoroughly before refilling it.
- **Storage:** When the dispenser is not in use, store it in a dry place away from direct sunlight to preserve the quality of the material.
